

Current range of machines

ROSCAMAT®

ROSCAMAT MOSQUITO

- Electrical motor – single phase
 - Tapping Capacity: M2-M14
 - 3 different motor versions: 300 & 600 rpm
- Flexible, light, high productivity

ROSCAMAT®-200

- Pneumatic motor
 - Tapping capacity: M2-M14
 - Working area: 935 mm.
- *Ideal for pieces of small size and small threads.

ROSCAMAT®-400

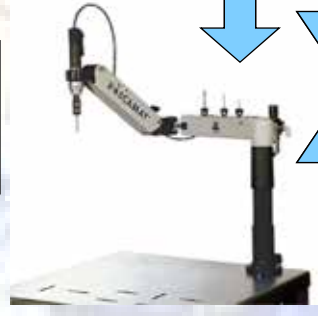

- Pneumatic motor
- Tapping capacity: M2-M24
- 6 different speeds (Modular system)
- Working area: 1150 mm.

Ideal for pieces of small and medium size. Mass production.

ROSCAMAT®-500

- Pneumatic motor
 - Tapping capacity: M2-M24
 - Working area: 2120 mm.
 - 6 different speeds (Modular System)
- Small and medium threads, ideal for big pieces, metal frames, sheet metal

ROSCAMAT®-500 RH

- Pneumatic motor
- Tapping capacity: M2-M24
- Working area: 2180 mm.
- 6 different speeds (Modular System)
- Multiposition head for tapping in any angle of the space.

Ideal for tapping of inclined holes and big workpieces

ROSCAMAT® SHARK

- Electrical motor
 - Tapping capacity: M3-M36
 - Working area: 1215 mm.
 - 6 different speeds (Modular system)
- Big production, pieces and threads of big size.

ROSCAMAT® TIGER

- Electrical motor
- Tapping capacity: M2-M27
- Working area: 1130 mm.
- 5 different speeds (Modular system)

Low consumption, big production.

Our customers

- Moulds
- Dies
- Mechanization industry
- Plate industry
- Car industry
- Metalwork
- Auxiliary in CNC machines
